## **Our Policy of Care and Payment**

Ensuring that our patients receive high quality care is the goal of our practice.

Payment is due at time of treatment by cash, check and major credit cards. We also offer Care Credit and Citi Health that allow you to spread your payments over time.

Insurance is designed to cover some, but not all, of your dental services. They are a method of reimbursement, not a substitute for payment. Please understand that dental insurance is a contract between the patient and the insurance carrier, and not between the carrier and the dentist. The patient is still the responsible party regarding dental fees and should have a full understanding about their benefit plan. We will be happy to submit your services to your insurance company, as long as you have provided us the appropriate insurance information prior to services being rendered.

DIVORCED PARENTS: We do not second party bill. The parent bringing the child to our facility will be responsible for required co-payments, deductibles etc. at the time of service.

**Please Note**: If you are receiving a composite (white) filling, your insurance company may not pay the full benefit price as they would for a amalgam (silver) filling. The difference in this price is the responsibility of the patient.

Insurance benefits are not meant to be a "pay all". Please know that in most cases there will be a co-payment/patient portion <u>due</u> at the time of each service.

I acknowledge that payment is due at the time of treatment. I agree that parents, guardians or personal representatives are responsible for all fees and services rendered for treatment of a minor/child. I accept full financial responsibility for all charges for services or items provided to me, to my minor/child, or to the patient for whom I have legal responsibility. I understand that filing a claim with my insurance company does not relieve me from my responsibility for the payment of all charges.
